

Choose from four attractive finishes to get the ideal match for your project

Galvanised steel

Your first choice for a contemporary planting scheme.

The protective zinc coating of galvanised steel prevents rusting and gives a stylish high gloss appearance.

Cor-Ten steel

Weathers to develop a striking rust-like finish.

The distinctive finish of Cor-Ten steel is high impact and low maintenance, with a beautiful burnt orange-brown hue once exposed to the elements.

Brushed steel

An elegant and understated satin finish.

The metal is polished and sanded to achieve a subtle textured appearance, making it the perfect container to bring plants into the heart of a modern urban environment.

Natural Cor-Ten

Weathered Cor-Ten

Powder-coated steel

High-impact and hard-wearing in any RAL colour.

Powder coating creates a hard-wearing colour layer which is much tougher than conventional paints. We offer over 200 colours, so you can find the ideal colour for your scheme.
